Commissioner for Patents
P.O. Box 1450

Sir:

We, Craig Weissman, Dave Moellenhoff, Simon Wong and Paul Nakada, each hereby declare and state as follows:

1. We, Craig Weissman, Dave Moellenhoff, Simon Wong and Paul Nakada (hereinafter "the SFDC inventors"), are joint inventors of the subject matter recited in all pending claims of the above-entitled application.

2. All the work described in this declaration was performed in the United States of America.

3. Prior to August 29, 2003, the SFDC inventors conceived the subject matter of the inventions described in the pending claims in the United States of America.

4. From before August 29, 2003 to September 23, 2003, the SFDC inventors and Mr. Gerald T. Gray, a patent attorney at Townsend and Townsend and Crew and attorney of record of the above identified application, diligently worked towards filing a patent application in the U.S. Patent and Trademark Office as evidenced by Attachment 1, which is a portion of the billing records showing Mr. Gray's work for the above-referenced patent application.

5. Attachment 1 shows that Mr. Gray had begun drafting the application prior to August 29, 2003, and that he had sent us a draft application for review on August 19, 2003, prior to August 29, 2005.

6. Attachment 1 also shows that Mr. Gray worked 8 days, inclusive, between August 19, 2003 and September 23, 2003, logging 10.7 hours for this matter, including revising the application per comments the SFDC inventors had provided on the draft application.

7. On September 23, 2003, the application describing the SFDC inventors' inventions was filed in the U.S. Patent and Trademark Office. Attachment 1 reflects that Mr. Gray worked 1.4 hours on September 23, 2003 to prepare and file the application and an Information Disclosure Statement (IDS).

8. We each declare, individually, that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements, and the like, so made are punishable by a fine or imprisonment, or both, under §1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
